Gentlemen:

This is to announce the release and availability of the finest concealed weapons system, utilizing state of the art of laser targeting methodology.

Advanced design, coupled with the use of modular components, allows the system to be configured and housed within armored/anti-terrorist equipped vehicles or in a variety of handcarried cases. Through the use of special machining and fabrication of components, any handgun or similar device can be mounted as a part of the system. To preclude knowledge of systems use by terrorists or potential adversaries complete, confidentiality is maintained on all sales and services.

We will ship anywhere in the free world.

Our development staff will be happy to answer any and all questions. Please feel free to call or write for a detailed data package with no cost or obligation.
